

COMPETITION DIRECTIVE

2022 – 06

2022 BAYFAIR

Notwithstanding anything to the contrary set forth in the H1 Racing Rules, including specifically Racing Rule D5, and the definition of "Overlap" in subclause (c) thereof, the following special Rule shall apply at the Event held in San Diego during 2022.

"OVERLAP" shall mean the length of one ***"roostertail"*** – during each Heat, including any Warm-up Period and until the Boats are back to the dock after the end of the Heat.

For the purposes of this Rule only, ***"roostertail"*** shall mean the violent vertical fountain or spray (not the trailing mist) arising (and falling) from the Boat's Propeller or Skid Fin, whichever is longer at any specific time during the Heat and/or location on the Race course, all in the sole opinion of Race Officials.

The Rules and Competition Committee initiated such change in the definition of "Overlap" to prevent damage to powerplants from the unnecessary ingestion of salt water. This Competition Directive shall expire following the San Diego Event.
